## EDUCATION

---

**University of Engineering and Technology, Taxila**  
B.S Computer Science 6<sup>th</sup> Semester

**Taxila, Punjab, Pakistan**  
Expected Graduation, Sep 2026

## OBJECTIVE

---

Targeting Mern Stack roles with an organization of high repute with a scope of improving knowledge and further career growth.

- Frontend Developer (HTML, CSS, JavaScript, React) with a strong background in building scalable web applications
- Demonstrated ability to manage and deliver projects efficiently, from initial planning and design to final deployment and maintenance.
- Committed to staying updated with the latest industry trends and technologies, continuously enhancing skills to provide innovative solutions

## PROJECTS

---

### Ecommerce Site

**January 2025 - Current**

**Tools: HTML, CSS and JavaScript**

A full-featured Ecommerce application enabling users to register, authenticate, and manage their order product seamlessly

**Responsibilities:**

- Developed the front-end using HTML and CSS, creating a responsive and intuitive user interface
- Implemented user authentication and authorization using Appwrite, ensuring secure access to the application
- Managed the backend entirely with Appwrite, handling data storage, retrieval, and user management efficiently

### AI Chatbot

**June 2024 – July 2024**

**Tools: React, Node.js, and OpenAI's GPT API**

**Responsibilities:**

- Built a real-time chat application with an integrated AI chatbot using React (frontend), Node.js/Express (backend), and OpenAI's GPT API
- The chatbot is capable of understanding natural user input and providing intelligent replies
- Features include user authentication, chat history, and dynamic response generation tailored to user behavior

### Currency Converter

**June 2023 – July 2023**

**Tools: React, API Integration**

A sleek and intuitive web application allowing users to easily convert amounts between different currencies, leveraging realtime exchange rates.

**Responsibilities:**

- Developed the front-end using React, ensuring a responsive design that works seamlessly across desktops, tablets, and mobile devices
- Implemented real-time exchange rate fetching using an external API for accurate currency conversions
- Added swap functionality to quickly interchange source and target currencies
- Supported multiple global currencies to cater to a diverse user base

## ACADEMIC ACHIEVEMENTS

---

**HTML & CSS (Meta)**  
Version Control (Meta)

**JavaScript (Meta)**  
Introduction to Frontend Development (Meta)

**WordPress (Digi skill)**

## SKILLS

---

**Programming:** JavaScript, Python, HTML/CSS, C++

**Frameworks:** React.js, Node.js, MongoDB

**Tools:** Github, Git, Visual Studio, Cursor, WordPress

**Soft Skills:** Communication, Teamwork, Time Management
