## PROJECTS

### Ecommerce Site

01/2025 - Present

A full-featured Ecommerce application enabling users to register, authenticate, and manage their order products seamlessly

- Developed the front end using HTML and CSS, creating a responsive and intuitive user interface
- Implemented user authentication and authorization with Appwrite, ensuring secure and controlled access to the application
- Independently managed the backend using Appwrite, efficiently handling data storage, retrieval, and user management

### Sundown

06/2024 - 07/2024

- Developed a frontend application to show design capabilities
- Use the Locomotive and Swiper JavaScript library for smooth scrolling and beautiful swiping effects
- Implement animation with combination of CSS & JavaScript

### Currency Converter

06/2023 - 07/2023

A sleek and intuitive web application allowing users to easily convert amounts between different currencies, leveraging real-time exchange rates

- Developed the front-end using React, ensuring a responsive design that works seamlessly across desktops, tablets, and mobile devices
- Implemented real-time exchange rate fetching using an external API for accurate currency conversions
- Added swap functionality to quickly interchange source and target currencies
- Supported multiple global currencies to cater to a diverse user base

## CERTIFICATION

Introduction to Front-End development

META

Programming with JavaScript

META

Version Control

META

## SUMMARY

Motivated and detail-oriented frontend development student with hands-on experience in HTML, CSS, JavaScript, and React. Seeking an internship opportunity to contribute to real-world projects while continuing to learn and grow as a web developer.
